## **DETAILED ACTION**

### ***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 28-44, drawn to: a system for reading a data item from a storage system, classified in class 710, subclass 36.

Group II. Claim 45-59, drawn to: a system for writing/updating a data item to a storage system, classified in class 711, subclass 100.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are disclosed as different combinations which are not connected in design, operation, or effect. These combinations are independent if it can be shown that: (1) they are not disclosed as capable of use together, (2) they have different modes of operations, (3) they have different functions, or (4) they have different effects (MPEP 806.04, MPEP 808.01). In the instant case the combinations perform different functions and have different effect which are not connected in operation or effect.
